Amefa „Together we achieve more“

At Amefa we are proud to say that we have more than 80 years of experience in setting the world's tables. With our four brands, Amefa, Richardson Sheffield, Couzon and Medard de Noblat we can offer you a wide variety of table top and kitchen products. Amefa supplies their products to customers in over 50 countries worldwide.

At Amefa we believe that you learn every day, about cutlery, kitchen knives and table top, even we do. But we also have a life time of experience to guide you through our spectacular portfolio.

Silver and gold plated

Silver plated cutlery

Silver plated cutlery is the epitome of table culture. The silk appearance of the material is unique and adapts to use on both classic and contemporary patterns.

Amefa has a range of patterns suitable for silver plating, which comply with the most stringent quality demands of the industry. For the modern silver-plating process Amefa always uses German factories for the "electro plating" of silver onto the chrome nickel steel which complies with the European Standards EN ISO 8442-2.

The material is as important as the finishing. We therefore only use the highest quality 18/10 chrome nickel steel.

Silver plating

Amefa can offer varying levels of micron when it comes to silver plating which we specify as follows:

Silver plating:	B60	B90	B100	B120	B150
Thickness:	24*	36*	40*	48*	60*
* micron					
Purity of Silver:	999+/1000 %				

Gold plated cutlery

To give your cutlery a 'Royal touch', you can accentuate certain decoration lines on your cutlery or have it completely gold plated (except the knife blades as these cannot be plated). Amefa uses only 23 carat gold and thus assures you of a perfect finish. We use a company in Solingen, Germany, capable of producing high quality gold plated cutlery products.

Quality of Gold:	23/24 Carats
Thickness:	0,1 micron

Customer branding

All patterns can be stamped or etched with your specific company details.

After receiving your logo, text or picture, we can advise you about the cost for tooling, stamping or etching accordingly.

Cutlery maintenance

All Amefa products are subjected to rigorous quality control.

Cutlery is produced in either 18/0 chrome steel or 18/10 chrome-nickel steel. These types of steel are stain resistant.

Modern dishwashing systems and today's aggressive detergents will not be harmful to your cutlery as long as you follow these guidelines.

Stains on cutlery can be caused by:

- Insufficient cleaning or drying
- Too high a dosage of detergent
- Not rinsing the cutlery after usage so acids and salts from food products can stain or damage the cutlery.
- Contact between various types of steel like chrome- and chrome nickel steel or chrome nickel steel and silver(plated) material. (contact erosion)

To prevent stains we advise you to follow these instructions:

- Rinse the cutlery directly after usage
- Dry cutlery by hand with a dry cloth if still moist after cleaning in the dishwasher.
- Please follow the dosage of detergents as per the instructions of the manufacturers. Very dirty dishes do not require a higher dosage of detergent.
- Follow the maintenance instructions of your dishwasher meticulously.
- To prevent contact corrosion (caused by different types of steel which come into contact with each other) we advise you to put the knives in a different basket than the forks and/or spoons.
- Place the blade of the knife upwards and the prongs of the forks as well. This causes the water to rinse off easily and to guarantee proper cleaning of the various items.
- Remove the cutlery from the dishwasher as soon as the cleaning program is finished.

Gold and Silver plated cutlery

All silver and gold plated cutlery is very delicate. In order to maintain its lustre for as long as possible, we advise that you clean this by hand.

The Amefa brand is setting tables around the world since 1931.

Amefa has a strong international reputation and extensive expertise in manufacturing stainless steel products.

We offer a wide variety of cutlery patterns, which come in different qualities, 18/0 as well as 18/10 stainless steel, from classic to stylish designs.

We apply high quality standards to all our products to guarantee durability and lasting performance.
